Client

HSBC Egypt

Scope of Work

Architect of record
Schematic design
Detailed design
Tender action
Construction supervision

Location

Cairo, Egypt

Types of Activities

Architectural
Communications and security systems
Electrical
HVAC
Mechanical
Structural

Relocating the HSBC Bank New Head Office to Maadi Suburb in Cairo involved the development of a 4,000 m² office footprint area. With a total built-up area of 25,500 m² (2,150m² per floor), the postmodern, blast

resistant office building accommodated a basement, a ground floor, and nine typical floors; five of which were handed over on a core and shell basis, while the other floors were fully finished.
