Perkins Eastman and ECG were awarded the design and construction supervision consultancy services for Lekhwiya Sports Stadium.

The overall project included two phases, phase (1) comprised a soccer stadium, with a built-up area of 6,863 m<sup>2</sup> and concourse area of 720 m<sup>2</sup>, four training soccer

fields and the related facilities. Phase (2) comprised a fitness center, a mosque, utility buildings, changing rooms, substations and a sewage treatment plant.

The stadium has a capacity of 10,000 seats spread over a seating area of 6,005 m<sup>2</sup>.
