Mechanical

The project covered the construction supervision and maintenance services for mosque complexes affiliated with the Ministry of Endowments & Islamic Affairs. Work covered four mosque complexes at four different locations.

The mosque complexes stretch over a total area of approx. 4,800 m². With a total built-up area of approx. 1,055 m², the buildings are included in four complexes as follows.

Complex A

- Standard Single-Story Mosque (approx. 165 m²): prayer hall (70 worshippers), minaret, water tank area, courtyard, ablution facilities, and toilets.

- Imam House: two bedrooms, kitchen, bathroom, and courtyard.

Complex B

- Single-Story Mosque (approx. 150 m² of demolition and reconstruction): main prayer hall (50 worshippers), minaret, water tank area, ablution facilities, and toilets.
- Imam House: two bedrooms, kitchen, bathroom, and courtyard.

Complex C

- Single-Story Mosque (approx. 300 m² of demolition and reconstruction): main prayer hall (65 worshippers), minaret, open courtyard, water tank, electric room, ablution facilities, and toilets.
- Imam House: two bedrooms, living room, kitchen, bathroom, and courtyard.

Complex D

- Single-Story Mosque (approx. 440 m² of demolition and reconstruction): prayer hall (200 worshippers), ladies' prayer hall (50 worshippers), Da`wah room (with a kitchen), minaret, ablution facilities, and toilets.
- Imam House: two bedrooms, kitchen, bathroom, open courtyard, water tank, and electric room.
