The project involves works of refurbishment to the following components of Cairo Stadium:

- Horseback Riding Stadium (8,400 m²);
- 6 service buildings (each comprising 3 floors), with a total built-up area of 3,300 m², plus 2 floors containing locker rooms and toilets in another service building within the Indoor Halls Complex;
- Painting of the walls and floors of Halls 2, 3 and 4 (each hall has a floor area of 1,800 m² and total wall surface area of 3,600 m²);
- Table Tennis Hall within the Indoor Halls Complex (520 m²);
- Flooring of Halls 3 and 4 (1,750 m² per hall);
- Audience seats of Halls 1 and 2 (20,000 seats per hall); and
- Pentathlon Hall at Gate 2 of the Indoor Halls Complex (800 m²).
