

# St. Regis Towers (Nile Corniche)

## Client

Qatari Diar

## Scope of Work

Architect of record

Architecture and Interior design modifications

Construction supervision

## Location

Cairo, Egypt

## Types of Activities

Architectural

Designated as Architect of Record for St. Regis Hotel Towers, ECG also supervised the construction of the exclusive development. The 200,000 m<sup>2</sup> hospitality and hotel-serviced residential complex debuts the global St. Regis brand to Africa. It encompasses two towers and a retail atrium with sweeping views of the River Nile.

The Cairo Nile Corniche Towers include luxurious residential apartments and penthouses, serviced apartments, offices, retail units, restaurants, and a five-star

hotel. Towering as high as 38 floors, St. Regis contains 226 furnished rooms, 60 suites, 98 serviced apartments, 16 luxurious serviced apartments, 102 luxurious hotel-serviced apartments, and a penthouse. Other amenities offered include more than 8,000 ft<sup>2</sup> of meeting and conference spaces, a business center, retail units, four restaurants, a lounge, an outdoor pool, a luxury spa, a fitness center, and an 800-slot underground parking area.
