Saudi Arabia

Types of Activities

Architectural
Civil works
Electromechanical works
Interior design

The project comprises three new school campuses in the Jeddah districts of Muhammadiyah and Safa, and the Dammam district of Shatie. Broadway Malyan was appointed as Design Architect for the new schools prototype.

The three campuses provide both male and female students with kindergarten, elementary, intermediate and secondary education following the international IB & IGCSE curricula, as well as national Saudi curricula (normal and advanced).

Each of the Safa and Shatie campuses (with capacity of 2,040 and 1,825 students respectively) comprises a

basement for car parking and services, a ground floor and 2 upper floors, with built-up areas of 33,000m² and 25,000 m², respectively. The Muhammadiyah campus (with a capacity of 2,600 students) comprises a ground floor and 2 upper floors, with a built-up area of 40,000 m².

The ground and upper floors of all three campuses are utilized as follows:

- ground floor: entrance, administration & staff rooms, classes, labs, library, as well as sports & activities facilities
- first & second floors: classes, staff rooms and utilities
