Structural

The building stretches over a land area of 108,659m² (25.8 feddans), with dimensions as follows: 420m × 260m.

The project covers Parliament's main building with a land area of 94,396m², six ancillary buildings, and a mosque (500 worshippers).

The project also includes a two-story parking lot (1,500 vehicles).

The main building's design comprises three wings, as well as Parliament's main building, designed to accommodate more than 1,000 MPs.
