Structural

Aiming to improve the technical education and training in Egypt, SDM for Development and Management aims to construct a technical school under the name of El-Sewedy Technical Academy (STA) in El-Sewedy Industrial Park at Al-Ain Al-Sokhna.

Stretching over a land area of 10,000 m², the project comprises a three-year technical high school that offers

customized dual technical and vocational education for 600 students among the three grades. This includes the school building, administration building, and a playground service building.
